*Concl.*

10.(AMENDED) The method of claim 8, [characterized in that] the on-screen display [(102)] allows a user to select the second one of the plurality of portions of program information without interrupting a PLAY mode of the system.

## IN THE ABSTRACT:

~~Please add the following Abstract.~~

*Sub B*

*109743654-041101*

~~-- A method and apparatus for controlling a system for processing information stored on a storage medium, such as a DVD, wherein the stored information includes a plurality of portions of program information, such as a plurality of titles and each of the plurality of titles comprising a respective plurality of chapters, involve accessing a first one of the plurality of portions of program information during a playback mode of operation; providing to a user, during the playback mode of operation, an opportunity to select a second one of the plurality of portions of program information responsive to user input, providing information to the user for identifying the first one of the plurality of portions of program information and for indicating other ones of the plurality of portions of program information that are available for selection by the user, and changing to playing back the selected second one of the plurality of portions of program information during the playback mode of operation.--~~

## REMARKS

The specification has been amended to include a reference to the priority applications.

The above amendments to the claims have been made to eliminate the multiple dependencies and to meet the requirements of the United States.

To meet the requirements of the United States, the Abstract (as originally filed in the PCT application) is added.

No fee is believed to have been incurred by virtue of this amendment. However if a fee is incurred on the basis of this amendment, please charge such fee against deposit account 07-0832

Respectfully submitted,
